THE ALL-NEW AXOPAR 29 XC

WHERE MORE IS MORE

This all-new range represents the culmination of living our adventure and listening closely to our customers. Everything onboard, all you can see, touch, and feel, has been improved and enhanced to our customers' wishes. It has all been done with a sense of purpose, and for specific reasons, in terms of improved functionality, usability, comfort and higher quality with a new visual presence, still without forgetting our origins and paying homage to the predecessor, the Axopar 28's.

The Axopar 29 range, therefore, is even more multifunctional, maintaining its exceptional value for money, made to push and redefine the adventure boat genre, even when the sub-30-foot category itself has developed enormously with new brands entering the market in the last years.

At Axopar we do not change anything without a sense of purpose, but when we see clear opportunities for improvement, we want to act immediately for the benefit of our customers. This might explain how fast and dedicated we have been able to develop our company and its range of boats in only 10 years.

**SOLD AS OPTIONAL EQUIPMENT*

MORE HYDRODYNAMIC

Together with improved hydrodynamics, the bigger 400-liter fuel tank offers a cruising range of 200+ nautical miles, and a wide cruising speed zone between 22 to 32 knots where Liters per nautical mile consumption remain almost unchanged. The new hull dynamics also raise the fast-cruising speed of the Axopar 29's up towards 37 knots, still maintaining good fuel efficiency and driving comfort.

MORE DESIGN

The Axopar 29 range showcases a new sharper industrial design that's more striking in all its details big or small and embodies individuality.

MORE LOUNGING

The new layout on the foredeck provides so much more volume in the bow and you can now seat comfortably up to 8 people. Such is the sense of space that when you're looking forward from the helm you could almost imagine yourself being on the Axopar 37. Adding the optional U-sofa extension, together with the front facing bench, both together create a kind of new O-shaped lounging area, which is great for socializing. A hi-lo table can be used for drinks and al fresco eating, and infill cushions offer the option of a huge sunpad.

ALTERNATIVES FOR AFT DECK

The modular nature of Axopars, and our multi-platform thinking, enables you to customize your boat with an aft layout to suit your everyday needs. As standard the Axopar 29 XC Cross Cabin comes with a spacious open aft deck. The aft deck can be also equipped with an optional aft bench, wet bar module, or an aft cabin.

CONFIGURATIONS & LAYOUTS

We want to provide you an extensively customizable and user-friendly boat that can match you in your everyday needs all year around and for all your adventures. The configuration you choose will define the final layout of your boat. Below are a few examples of exterior and interior layouts available.

Aft Deck Bench with standard L-Sofa layout and optional Table in the bow

Wet Bar with optional U-Sofa layout in the bow

Open Aft with optional U-Sofa and Forward Facing Sun Pad in the bow

Aft bench with L-Sofa layout and Table in the bow

Aft Cabin with Lounge layout and Bolsters in the bow

KEY FEATURE HIGHLIGHTS

Driver Experience

The pilothouse feels vastly more spacious, and you can move around with less thresholds, greater legroom for front and rear occupants and more headroom.

The optimized layout, improved sightlines, combined with the wraparound panoramic front and rear windscreens offer an enormous difference and a much airier sensation inside, with significantly improved 360-degree visibility all around.

The steering console can be equipped with an optional Simrad® NSX® ULTRAWIDE chartplotter.

Panorama View

Repositioning the c-pillars to a more forward location has made reversing and mooring manoeuvres in tight and restricted spaces that much safer and easier.

Sliding doors that now open wider, offset helm seating and an interior floor that is now flat, together mean easier and more comfortable freedom of movement.

Multi-cabin

The multicabin forward gives tons of extra usability for the boat and now you can have two couples, or two adults and two kids staying overnight, when selecting the main sleeping aft cabin to the boat.

Or the Axopar 29 now has an overnighting capability for those who do not wish to take away any space from the functional aft deck.

KEY OPTION HIGHLIGHTS

More Modular

The Axopar 29-Range offers even more possibilities to customize the layout to your liking.

Modular Fore Deck

The extended modularity on the 29 extends to the fore deck as well. With new layout options such as a u-sofa, and forward-facing sun beds, you can enjoy lounging in even more ways than before.

Further Improved Aft Cabin

The practical aft-cabin doubles as a huge 'multi-storage' space for transporting gear and equipment, and for easy loading there is now a wide-opening hatch so that all kinds of gear, including wakeboards and water skis etc, can be accessed easily and safely stowed from the aft deck.
